HELPING A HERO.ORG

Wounded Hero Home Program

The Wounded Hero Home Program is our signature homebuilding program for severely wounded warriors injured in the post 9-11 Global War on Terror. Helping a Hero homes are designed with the specific veteran's injuries in mind. Adaptations vary for each wounded hero and the home is designed to maximize the veteran's independence, subject to the project budget constraints. Homes for amputees and wheelchair bound veterans include roll in showers, roll under sinks, an adapted toilet area and other safety features. Burn victims have often lost their cilia and have lost their sweat glands where they were burned, necessitating the interior temperature in their home be kept at 68 degrees.

Ordinarily homes are built in master planned communities where the developer donates the lot and the builder builds at cost. Helping a Hero contributes up to \$100,000 in cash, assists in soliciting in kind donations and assembles the team for the project. The veteran commits to make the Helping a Hero home his/her primary residence for 10 years, contributes \$50,000 minimum to the home and if eligible, the veteran commits the VA Specially Adapted Housing Grant to the project. To date, Helping a Hero has awarded over 100 homes in 22 states and is accepting applications for 2021 homes.

Thank you to the donors of Helping a Hero for investing in me, in my children, and in our future. You will see a return on your investment, because I refuse to live life for myself.

-Captain (Ret) Dan Moran, USMC
